January 2010

News and Happenings from the Team at SAFE

Our Seattle location includes offices for SAFE consulting services and SAFE installation services Corp. The classroom space, located on the first floor, is used for meetings and training sessions alike, as our team focuses on staying on top of the cutting edge products, services, and technologies.

The team at SAFE specializes in sales, service, and installation of commercial low voltage systems in the Pacific Northwest, Inland Northwest and Alaska. SAFE, along with our design-build partners, provides services to electrical and general contractors as well as the end user. Our customers have come to rely on our knowledgeable service and support.

Upcoming Event!

2010 Vendor Fair and Open House

Hosted by SAFE installation services Corp.
Eat, Drink and Network

New Projects Awarded to SAFE

SAFE installation services Corp. was awarded the video surveillance and building access control for the Luna Sol Building in Kirkland, Washington. Luna Sol is a mixed use building with 52 condominiums and retail space. The Luna Sol Building project adds yet another mixed use building to SAFE's portfolio of installed specialty security systems designed to meet the challenging needs of this type of facility.

Tim Biddick Joins the SAFE Team

SAFE is proud to announce a new addition to our team. Joining us in the position of Business Development Manager is Tim Biddick. Tim brings to SAFE years of experience in sales, customer service, marketing, and strategic thinking. He has a rich history in the low voltage electrical field. With Tim on our team we expect to provide even better service to our existing customer base, expand on future partnerships, and maintain strong relationships with our valued strategic partners. We're excited to have him on board!

Plans are underway for the SAFE Vendor Fair and Open House scheduled for this spring. Currently our planning staff is selecting the vendors that will be demonstrating the newest technologies in the security and life safety industry. This year's fair will be focused on system administrators, the staff that interacts with the product and decision makers needing to meet tight budgets. Contact SAFE for more information.
